DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-4, 13, and 15 drawn to a wireless AV system and associated method.

Group II, claim(s) 5-8, drawn to a wireless center and associated methods.

Group III, claim(s) 9-12 and 14, drawn to an AV output device and associated methods.

Group IV, claim(s) 16, drawn to an AV system.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the wireless center and AV output device of groups II and III, respectively, recite features not found in the corresponding devices in group I. Likewise the AV system of group IV differs from that of group I in that the system of group IV does not recite a wireless center.
